## ENERGY EFFICIENCY TIP OF THE MONTH

If you recently made or plan to make energy efficiency upgrades to your home, you may be eligible for federal tax credits. The Inflation Reduction Act (IRA) of 2022 empowers homeowners to save up to \$3,000 annually to lower the cost of efficiency upgrades by up to 30%. A few upgrades covered through the IRA include new exterior doors, windows, insulation, heating/cooling equipment and other major appliances. If you have completed or are considering an efficiency upgrade, visit [www.energystar.gov/federal-tax-credits](http://www.energystar.gov/federal-tax-credits) to learn if you qualify for tax credits.
