

FULLY SUPERVISED

Pendants communicate with base station every 13 hours to ensure proper connection. Central station is contacted in the event of a power outage, low battery or loss of RF signal.

AUDIBLE PROMPTS

Audible prompts can be heard during system set-up, system programming, testing and full system check.

SOS CALL

Emergency call is placed by either pressing the 'EMERGENCY' button on the pendant or on the base unit. Braille lettering is included on the base unit buttons.

BATTERY BACK-UP

Base unit includes rechargeable batteries for up to 24 hours of emergency battery power in the event of a power outage.

Are you concerned about a loved one's safety?

- Of the 35 million Americans over 65, about 1 in 3 will fall in a given year.
- Seniors are hospitalized for fall-related injuries 5 times more often than they are for other injuries.
- 50% of people who fall require assistance from someone else to get up.
