

Dairyland Power Cooperative Careers Scholarship Application

The Dairyland Power Cooperative Careers Scholarship was established to support one post-secondary education student annually. Preference is given to students who are pursuing studies for careers found in electric utility settings (engineering, IT, communications, economics, human resources, public relations, finance/accounting, etc.). **More details are available at www.acrec.com/youth.**

Extra Curricular Activities and Community Service (attach additional pages as needed:

Please answer **one** of three essay questions on a separate sheet of paper. Essays must be 300-500 words. All essays will be run through an AI content detection system. Essays found to be AI-generated will be disqualified.

- How do you believe growing up in a rural setting has enriched you as a person/future employee?
- In your area of study, where do you see technology advances in the future?
- How can emerging technologies like AI be leveraged to improve life in rural areas?

Please attach a copy of your college transcript and return all items to:
